

LIGHT
IS
LIFE

A DYNAMIC COMPANY:

LIGHT4 Srl was established in April 2007 and immediately became a creative workshop.

The work team has already gained longstanding experience in the lighting sector. Company organization is streamlined and efficient, highly geared to custom-made products, while end results always reveal high quality standards.

Its products are designed and made as a true message:

Light is knowledge, illumination is meaning.

The most important element is always only one: **light**, which is expressed in many different ways: **colour effects, furnishing solutions and timeless styles.**

A further guarantee of quality comes from the company's source of production: materials and assembly operations are strictly **"made in Italy"**

Specific company choices enable **LIGHT4** to highly focus on **custom-made** products, on **design** and on the **contract** furnishing sector.

LIGHT4 operates on a global scale.

What **LIGHT4** care is that their customer are happy with **LIGHT4** product: each day we put all our effort in the challenge of the glass and in making object of pure and extreme beauty and design.

***LIGHT4** fu fondata nell'Aprile 2007 e subito divenne un laboratorio creativo.*

La squadra di lavoro ha già guadagnato una esperienza di lunga durata nel settore dell'illuminazione. L'organizzazione è snella ed efficiente, altamente orientata verso i prodotti custom, mentre i risultati finali rivelano sempre standards di alta qualità.

I suoi prodotti sono pensati e realizzati come un vero messaggio: la luce è conoscenza, l'illuminazione è il significato.

*Il più importante elemento è solo uno: **LUCE**, che viene espressa in diversi modi: effetti di colore, soluzioni d'arredo e stili senza tempo.*

*Un'ulteriore garanzia della qualità deriva dalla fonte di produzione dell'azienda: i materiali e le operazioni di assemblaggio sono strettamente **"made in Italy"**.*

*Le determinate scelte aziendali permettono a **LIGHT4** di concentrarsi sui prodotti **custom**, sul **design** e sul settore dell'arredamento **contract**.*

LIGHT4 opera su scala globale.

*Ciò che **LIGHT4** vuole è che i suoi clienti siano soddisfatti dei suoi prodotti: ogni giorno mettiamo tutto il nostro impegno nella sfida del vetro e nel costruire oggetti di pura, estrema bellezza e design.*

CUSTOM & bespoke

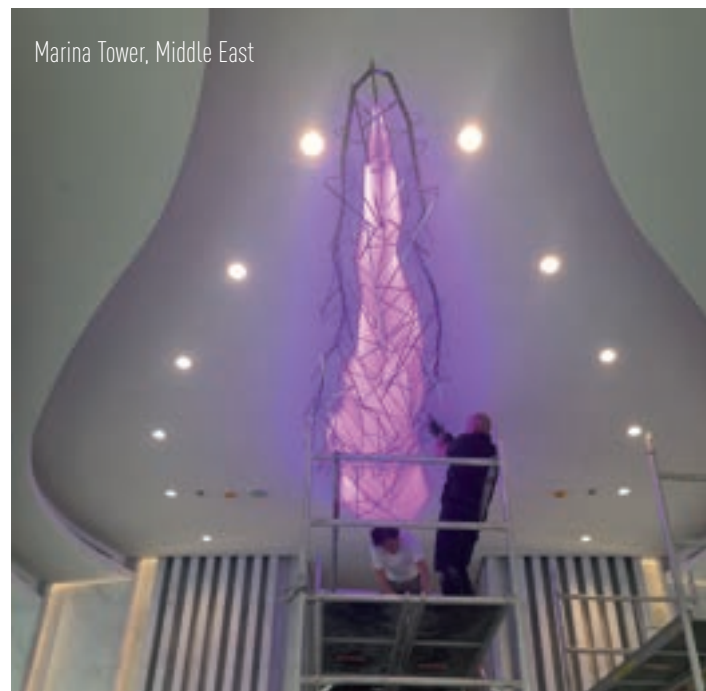

LIGHT4 is involved in satisfying the many requests of special projects coming from architects, engineers & designers of the entire world. LIGHT4 believes in the importance of dialogue "The most interesting projects are the results of a constructive exchange of ideas between the customer and the company".

LIGHT4 è coinvolta nel soddisfare le numerose richieste di progetti speciali che pervengono da Architetti, ingegneri e designers da ogni parte del mondo. LIGHT4 crede nell'importanza del dialogo. I progetti più interessanti sono il risultato di uno scambio costruttivo di idee tra il cliente e la società.

Francesco Pagnin / LIGHT4 founder & partner.

"We delight in the beauty of the butterfly,
but rarely admit the changes it has gone
through to achieve that beauty."

*Ci diletiamo nella bellezza della
farfalla, ma raramente ammettiamo
i cambiamenti che ha subito per
raggiungere quella bellezza.*

- Maya Angelou -

Exuding exclusivity akin to a fine accessory, our newest collection elevates the ambiance of any interior with class and glamour. Introducing the highly adaptable wall sconce structure to our 'Choose & Turn' collection marks a significant expansion of our offerings.

Crafted from exquisite blown glass, the PAPILLON diffuser seamlessly integrates with its metal structure, creating a captivating harmony of form and function. Available in three finishes: glossy white, pulegoso, and rigadin ritorto.

Con la sua esclusività, simile a quella di un gioiello raffinato, la nostra ultima collezione eleva l'atmosfera di qualsiasi interno con classe e glamour. L'introduzione della montatura ad alta adattabilità segna un significativo ampliamento nella collezione "Avvita la tua Lampada".

Realizzato in pregiato vetro soffiato, il diffusore PAPILLON si integra perfettamente con la sua struttura metallica, creando un'accattivante armonia di forma e funzione. Disponibile in tre preziose finiture: bianco lucido, pulegoso e rigadin ritorto.

MACONDO

design | Gregorio Spini

"At that time Macondo was a village of twenty adobe houses, built on the bank of a river of clear water that ran along a bed of polished stones, which were white and enormous, like prehistoric eggs".

Macondo era allora un villaggio di venti case di mattoni, costruito sulla riva di un fiume dall'acqua limpida che scorreva lungo un letto di pietre levigate, bianche ed enormi, come uova preistoriche.

- Gabriel García Márquez, One Hundred Years of Solitude -

Wall sconce 1L UpSideDown

Clear craquelè glass with brushed gold structure

*Applique 1L UpSideDown
Vetro trasparente craquelè
con montatura oro spazzolato*

The enchanting play of light through the characteristic 'craquelé' surface, combined with the geometric allure of the glass, conjures the illusion of an hourglass of light within the diffuser. MACONDO encapsulates the captivating fusion of light and glass, presenting a truly enigmatic objet d'art.

L'incantevole gioco di luce attraverso la caratteristica superficie "craquelé", unita al fascino geometrico del vetro, crea l'illusione di una clessidra di luce all'interno del diffusore. MACONDO racchiude l'accattivante fusione di luce e vetro, presentando un oggetto d'arte davvero enigmatico.

Crafted through the time-honored technique of 'craquelé', the impressive glass diffuser of the MACONDO collection undergoes a transformative process where incandescent glass meets cold water, resulting in its distinctive 'broken' surface.

Realizzato con l'antica tecnica del "craquelé", l'imponente diffusore in vetro della collezione MACONDO subisce un processo di trasformazione in cui il vetro incandescente incontra l'acqua fredda, dando vita alla sua caratteristica superficie "spezzata".

Available in both clear glass and smokey grey options, MACONDO offers a choice that suits diverse aesthetic preferences.

Disponibile sia in vetro trasparente che in grigio fumo, MACONDO offre una scelta che si adatta a diverse preferenze estetiche.

"You are more to me than any of them has any idea; you are the **atmosphere of beauty** through which I see life".

*"Sei per me più di quanto chiunque di loro abbia idea; sei l'**atmosfera di bellezza** attraverso la quale vedo la vita"*

- Oscar Wilde -

Transporting you beyond the bounds of gravity, the ATMOSPHERE collection defies conventional notions, with its glass diffusers appearing to hover weightlessly like delicate soap bubbles. The interplay of reflections and refractions, adorned with a myriad of colors, accentuates the finesse of these slender glass spheres.

Trasportandovi oltre i limiti della forza di gravità, la collezione ATMOSPHERE sfida le nozioni convenzionali, con i suoi diffusori in vetro che sembrano librarsi senza peso come delicate bolle di sapone. Il gioco di riflessi e rifrazioni, ornato da una miriade di colori, accentua la finezza di queste sottili sfere di vetro.

Crafted from decorated borosilicate glass, the ATMOSPHERE collection offers large spheres in two sizes: 20 cm and 25 cm, each exuding its own distinctive charm.

Available in captivating shades of blue, smokey grey, amber, green and clear glass. The fading colors further enhance the ethereal allure of this collection, offering an enchanting visual spectacle.

Realizzata in vetro borosilicato decorato a lustro sfumato, la collezione ATMOSPHERE offre sfere di grandi dimensioni in due misure: 20 cm e 25 cm, ognuna delle quali emana un fascino particolare.

Disponibili nelle accattivanti tonalità di blu, fumé, ambra, verde e trasparente. I colori sfumati esaltano ulteriormente il fascino etereo di questa collezione, offrendo un incantevole spettacolo visivo.

Inspired by the ethos of 'less is more,' the ELISE collection epitomizes richness through simplicity, captivating all with its mature and refined design.

Crafted from pristine borosilicate glass, the elegant simplicity of the ELISE collection is accentuated by a series of understated vertical lines, lending it an aura of sophistication.

Available in both clear and iridescent glass options, ELISE offers a choice that resonates with discerning tastes, blending seamlessly into any environment.

Ispirata dalla filosofia del “less is more”, la collezione ELISE incarna la ricchezza attraverso la semplicità, affascinandoci con il suo design maturo e raffinato.

Realizzato in vetro borosilicato semplice ed elegante, l'essenza della collezione ELISE è accentuata da una serie di sottili linee verticali, conferendole un'aura di sofisticatezza.

Disponibile sia in vetro trasparente che iridescente, ELISE offre una scelta in grado di soddisfare i gusti più esigenti, integrandosi perfettamente in qualsiasi ambiente.

BALL MINI

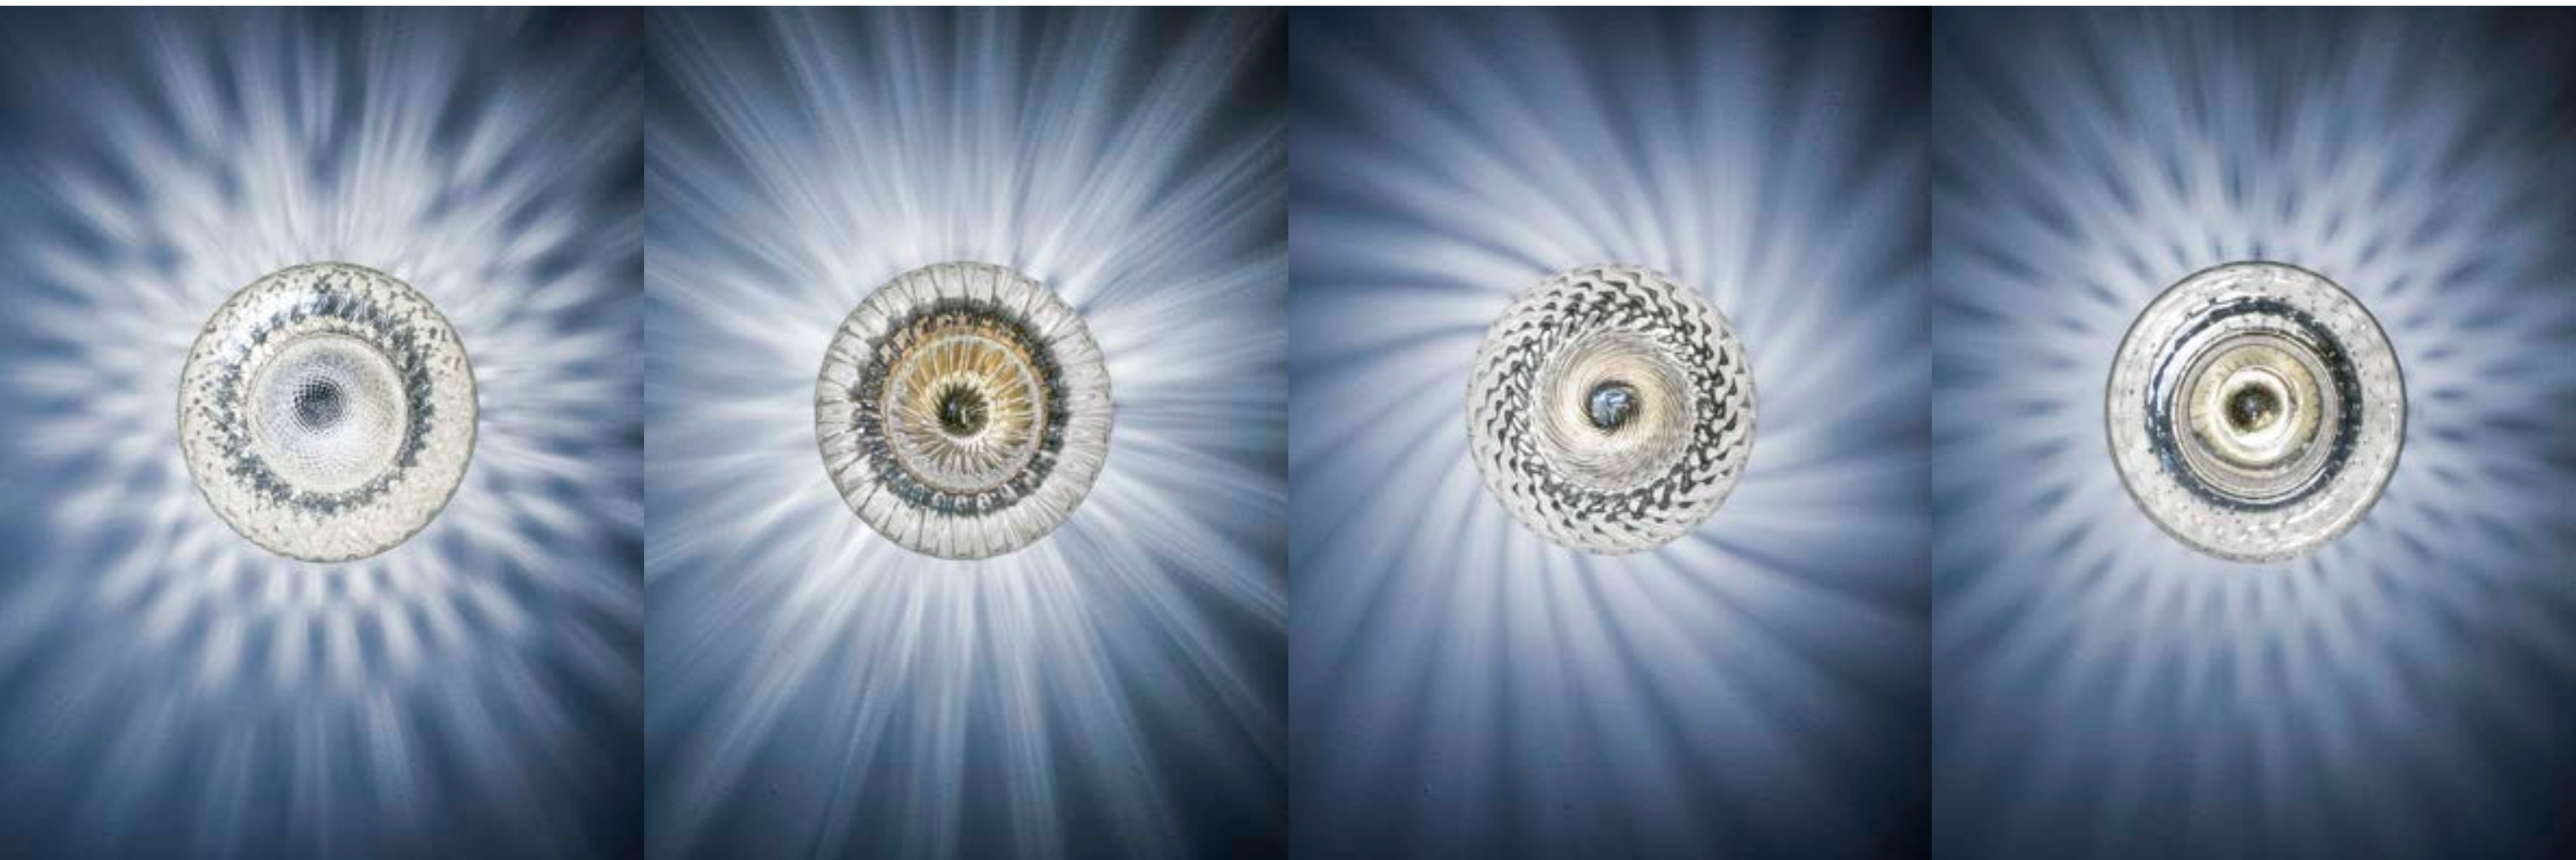

OGNI LAVORAZIONE **CREA** IL SUO **effetto luminoso**

each technique creates its own luminous effect

Il vetro della collezione BALL è soffiato a bocca da esperti maestri vetrai. Ogni vetro è unico ed è 100% made in Italy.

The glass diffuser of the BALL collection is blown by expert glass masters. Each glass is unique; each glass is 100% Made in Italy.

BALLOTON

Technique used to obtain a particular optical effect. It is based on the use of a metal die, with the inner walls containing small square based pyramidal "spikes" which, when the glass is blown, result in a cross-relief pattern.

Tecnica usata per ottenere un particolare effetto ottico. Si basa sull'uso di uno stampo in metallo contenente all'interno delle punte a piccola piramide a base quadrata che, nella soffiatura, danno un effetto di rilievo incrociato.

RIGADIN

Thin ribbing obtained by blowing a glass object inside an open die, generally in bronze, which has some grooves with a triangular cross-section.

Decoro ottenuto soffiando la pallina in uno stampo, in genere di bronzo, che porta delle scanalature a sezione triangolare. La péa diventa costolata.

RIGADIN RITORTO

The piece thus becomes ribbed and can also be twisted inside the mold to produce rigadin ritorto (swirl or twisted ribbing).

Se il vetro viene anche ritorto durante la stampigliatura si ottiene il rigadin ritorto.

BULLICANTE

By casing a gather (péa) stamped in this way in a layer (coperta) of glass, an effect is obtained whereby hundreds of tiny air bubbles are trapped between two layers of glass.

Ricoprendo una péa, stampata a balloton, con una coperta si ottiene l'effetto bullicante o a bolle, consistente in una miriade di piccolissime bolle d'aria rimaste intrappolate tra i due strati di vetro.

Bistro EINSTEIN², Prague, Czech Republic. Project - arch. Petra Indruchová. Photo - Jan Brychta

The clear glass of our CARNIVAL collection brings both light and elegance to the stylized bistro EINSTEIN² in Prague.

An impressive line of 8 suspensions illuminates perfectly the bar desk whereas the wall sconce versions illuminate the lounge area of the bistro.

The matt gold finishing of the metal fixtures is integrated with the choice of materials and colours of the interior design by Petra Indruchová.

Il vetro trasparente della nostra collezione CARNIVAL dona luce ed eleganza al bistrot di grande stile EINSTEIN² a Praga.

Un'imponente linea di 8 sospensioni illumina perfettamente il bancone del bar, mentre le versioni ad applique illuminano l'area lounge del bistrot.

La finitura oro opaco delle montature in metallo si integra con la scelta di materiali e colori dell'interior design Petra Indruchová.

DROP
in the
SEA

DROP

design | Brian Rasmussen

A drop in the sea.
Like a stone thrown into water stirs waves and reverberation, light transforms and brings DROP to life. The glass diffuser, decorated by several layers of serigraphy, gives the product a decoration that can only be seen when the lamp is illuminated. The diffuser is also wrapped in a structural prismatic PMMA element that spreads the light in a uniform manner all around.

*Una goccia nel mare
Come il sasso lanciato in uno specchio
d'acqua la anima di onde e riverberi, così la
luce trasforma e dà vita a DROP. Il diffusore
in vetro, decorato da diversi strati serigrafati,
conferisce all'oggetto una decorazione luminosa vi-
sibile solamente accendendo la lampada. Quest'ul-
timo è avvolto da un elemento strutturale in PMMA
prismatico che diffonde la luce in modo omogeneo
nell'ambiente.*

DROP MIRROR

design | Brian Rasmussen

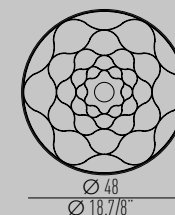

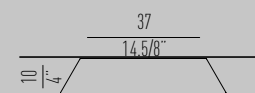

The DROP MIRROR version replaces the silkscreened glass plate with a mirror.
The mirror has a sandblasted band which is illuminated from behind.
The lamp also illuminates laterally through the prismatic PMMA structure.

La versione DROP MIRROR sostituisce la lastra in vetro serigrafato con uno specchio. Lo specchio ha un bordo sabbiato che lascia passare l'illuminazione retrostante.
La lampada si illumina anche lateralmente attraverso la struttura in PMMA prismatico.

The light is filtered by an opal PMMA profile that illuminates the underside of the fixture, giving the impression that the light beam is levitating. The different lengths of profile and the flexibility of the joining blocks make this range modular and easy to personalize.

La luce che viene filtrata dal profilo in PMMA ne illumina la parte inferiore satinata, dando l'illusione che la fascia luminosa sia sospesa e galleggi nel vuoto. Le diverse dimensioni dei profili, e la flessibilità degli incastri, rendono l'oggetto modulare e personalizzabile.

Cone of light.

The slow process of transformation of a tubular metal section to a slim and tapered cone, seems to attribute to the light-source the act of freezing the beam of light into a solid object. The accurate perfection of the surface, the specific weight and substance of the material, in contrast with the apparent fragility of the product, testify the value of the workmanship, all made in Italy. Last but not least, the varying color options, give the product an elegant and contemporary character.

Cono di luce.

Il lento processo di trasformazione di un elemento tubolare in ferro in un cono dalla forma affusolata e snella, sembra voler attribuire alla luce l'atto di aver congelato e reso solido un fascio luminoso. L'accurata levigatezza della superficie, il peso specifico e la sostanza del materiale, in contrasto con l'apparente esilità dell'oggetto, testimoniano il grande valore della lavorazione rigorosamente made in Italy. Infine, la svariata gamma di colorazioni, in cui è disponibile la lampada, ne conferisce un carattere elegante e contemporaneo.

bianco opaco RAL 9010

A continuous circle of light. The upper and lower diffusers in PMMA are completely without any fixing elements which allows the light emission to be perfectly continuous. This is possible thanks to an innovative construction of the section of the lamp which unites the two sides through an internal metal bracket. The lamp has a double light emission.

*Un cerchio continuo di luce
I diffusori, inferiore e superiore, sono in PMMA
opalino. Il flusso luminoso continuo è ottenuto
grazie all'assenza di elementi di fissaggio e ad una
costruzione innovativa del profilo della lampada
che unisce le due pareti in metallo attraverso una
staffa anch'essa in metallo. La lampada ha emissio-
ne luminosa sia verso l'alto che verso il basso.*

A homage to the city of the excellence of blown glass.

Each element represents an area (sestiere) of Venice.

The glass **SAN MARCO** naturally relates to the heart of the city, and its richness is expressed through the extraordinary Balloton technique (*).

The glass **GIUDECCA** is the tallest and thinnest element, just as the island of Giudecca itself, which stands out for its long shape.

In this way all the glasses have their own particularity that reflects the urban complexity of this unique city.

(*) Balloton engraving: based on the use of a metal mould containing pyramidal studs having a square base inside it, which give a criss-cross embossed effect upon blowing.

Un omaggio alla città del vetro soffiato d'eccellenza.

Ogni elemento rappresenta un sestiere di Venezia.

*Il vetro **SAN MARCO** si relaziona naturalmente al cuore della città e questa sua ricchezza viene trasmessa attraverso la lavorazione in Balloton (*). Il vetro **GIUDECCA** è il vetro più alto e stretto, proprio come l'isola della Giudecca, che si distingue per la sua forma longitudinale.*

In questo modo tutti i vetri hanno un loro particolarità che rispecchia la complessità urbana di questa città unica.

(*) Balloton: Tecnica usata per ottenere un particolare effetto ottico, si basa sull'uso di uno stampo in metallo contenente all'interno delle punte a piccola piramide a base quadrata che, nella soffiatura, danno un effetto di rilievo incrociato.

ECLISSE transcends the boundaries of traditional lighting solutions,

unveiling itself as an awe-inspiring **LIGHTING CONCEPT** that merges **technology, artistry,** and your boundless **creativity.**

your **CUSTOMIZABLE LIGHTING** CONCEPT **AWAITS!**

Crafted around an elegant **metal profile,** harmoniously intertwined with the brilliance of **strip LED** and the allure of **crystal pendants,** **ECLISSE** opens up a universe of design possibilities that go far beyond the ordinary.

A Canvas for Your Vision: **ECLISSE** isn't just a product; it's a canvas for your visionary designs.

It beckons you to reimagine spaces, challenging the traditional notions of lighting and aesthetic.

Whether you're an interior designer, an architect, or an artistic soul yearning to infuse spaces with your personal touch,

ECLISSE stands ready to transform your creative dreams into luminous reality.

Step into a world where light intertwines with imagination.

***ECLISSE** oltrepassa i limiti delle soluzioni illuminotecniche tradizionali e si presenta come un concetto di illuminazione sorprendente che fonde tecnologia, arte e creatività senza limiti.*

*Realizzato attorno a un elegante **profilo metallico,** armoniosamente intrecciato con la brillantezza delle **strisce LED** e il fascino dei **pendenti in cristallo,** **ECLISSE** apre un universo di possibilità progettuali che vanno ben oltre l'ordinario.*

***ECLISSE** non è solo un prodotto, ma una tela per i vostri progetti.*

Vi invita a re immaginare gli spazi, sfidando le nozioni tradizionali di illuminazione ed estetica.

*Che siate interior designer, architetti o anime artistiche che desiderano infondere agli spazi il vostro tocco personale, **ECLISSE** è pronta a trasformare i vostri sogni creativi in realtà luminose.*

Entrate in un mondo in cui la luce si intreccia con l'immaginazione.

The metal profile draws geometric shapes: circle, oval, line and rectangle.
The internal LED strip enlightens the crystal drops on scenic stage.
The various lengths of the drops give a dynamic design.

*Il profilo di metallo disegna forme geometriche: cerchio, ovale, linea e rettangolo.
Lo strip LED collocato all'interno illumina le calate di cristallo in modo scenico.
Le varie lunghezze delle calate donano un design in movimento.*

ECLISSE TWISTER

*design | Brian Rasmussen***HYPNOTIZED** BY the BEAUTY

ECLISSE TWISTER

Captivating Beauty Unveiled

Prepare to embark on an extraordinary journey into the realm of **ECLISSE TWISTER**.

This captivating lighting creation has the power to effortlessly dominate even the most expansive spaces, casting a spell of wonder and fascination.

It's the sheer beauty of the luminous spiral that truly captivates the viewer.

Bathed in an ethereal glow, its intricate design dances harmoniously with the interplay of light and shadow, evoking a sense of awe and enchantment.

The **ECLISSE TWISTER** features a modular structure composed of multiple **180-degree arches**, each with a different diameter.

This design allows you to create a **wide range of shapes and dimensions**.

Meet the Designer

Meet **LIGHT4's** art director, **Brian Rasmussen**, the mastermind behind this breath taking creation.

He's the visionary responsible for bringing this enchanting beauty to life.

With its remarkable modularity, **ECLISSE TWISTER** offers endless possibilities to craft installations of infinite sizes and shapes.

From mesmerizing spirals to dynamic formations, your vision becomes a reality with **ECLISSE TWISTER** as your muse.

*Preparatevi ad intraprendere un affascinante viaggio nel mondo di **ECLISSE TWISTER**. Questa accattivante creazione illuminotecnica ha il potere di conquistare anche gli spazi più ampi, regalando un'aurea di meraviglia e fascino.*

È la pura bellezza della spirale luminosa a incantare l'osservatore. Immerso in un bagliore etereo, il suo intricato disegno danza armoniosamente tra giochi di luci e ombre, evocando un senso di stupore e incanto.

ECLISSE TWISTER presenta una struttura modulare composta da più archi a 180 gradi, ciascuno con un diametro diverso.

Questo design consente di creare un'ampia gamma di forme e dimensioni.

Incontro con il designer

Vi presentiamo il direttore artistico di **LIGHT4**, **Brian Rasmussen**, la mente dietro questa creazione mozzafiato.

È lui il visionario responsabile della realizzazione di questa incantevole bellezza.

Grazie alla sua straordinaria modularità, **ECLISSE TWISTER** offre infinite possibilità di creare installazioni di dimensioni e forme.

Dalle spirali ipnotiche a forme dinamiche, le vostre idee diventano realtà con **ECLISSE TWISTER** come musa ispiratrice.

We are thrilled to witness the ever-growing success of our esteemed **ECLISSE** collection! Combining a metal profile with a strip LED, mesmerizing crystal chains, or elegant glass rods, these exquisite components, crafted with the highest Made In Italy quality, have made the **ECLISSE** our undeniable bestseller. Now, we are delighted to introduce an enhanced level of customization to the **ECLISSE**, offering you even more creative freedom. Introducing **two new linear components - L50 & L100 cm**, along with **two 90-degree arches Ø50 & Ø100 cm**. With these four elements at your disposal, you have the power to create an infinite variety of shapes and sizes, tailored to your unique needs and specific projects.

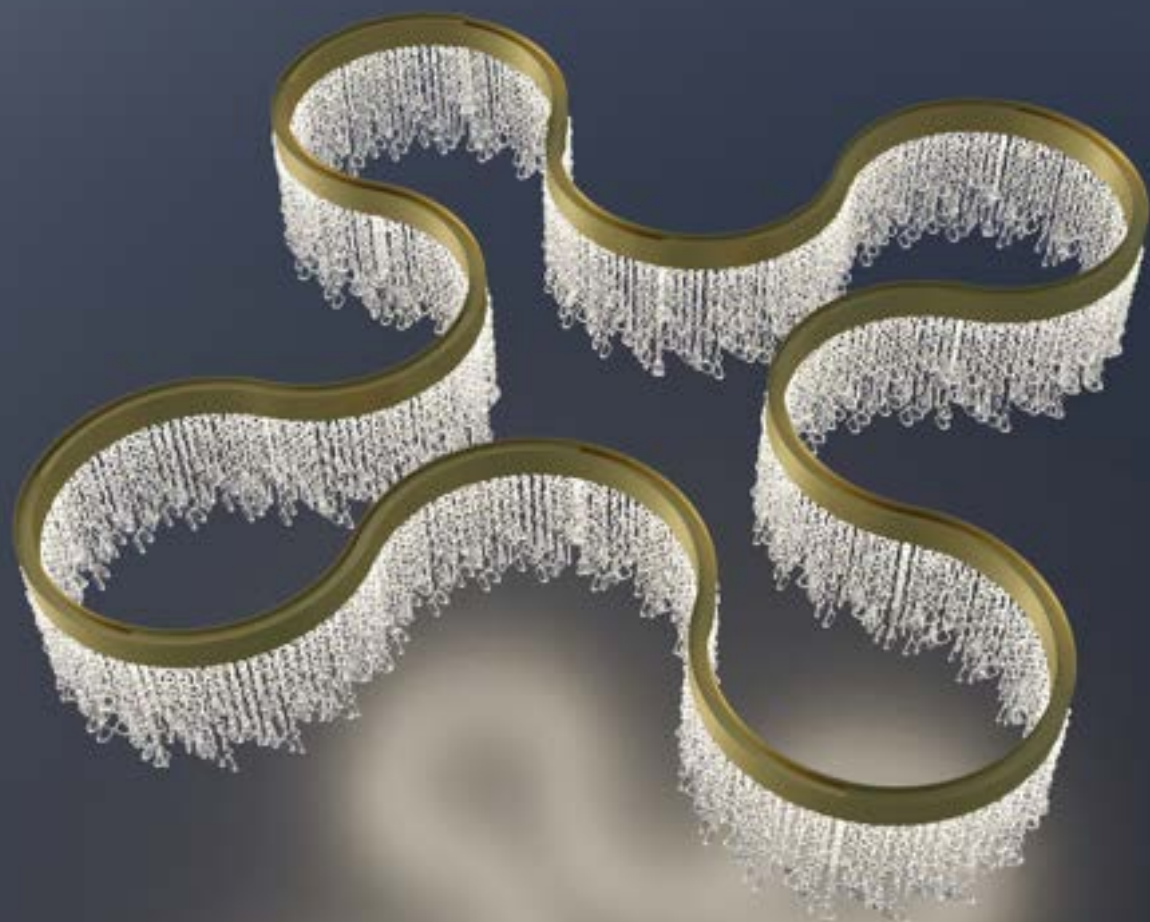

*Siamo entusiasti di constatare il crescente successo della nostra apprezzata collezione **ECLISSE**! Combinando un profilo metallico con una striscia LED, catene di cristalli o eleganti canne di vetro, questi componenti, realizzati con la massima qualità Made in Italy, hanno reso **ECLISSE** il nostro innegabile bestseller. Siamo lieti di introdurre un nuovo livello di personalizzazione per **ECLISSE**, offrendovi una libertà creativa ancora maggiore. Introduciamo due nuovi componenti lineari - **L50 e L100 cm** - e due archi a 90 gradi **Ø50 e Ø100 cm**. Con questi quattro elementi a disposizione, avrete la possibilità di creare un'infinita varietà di forme e dimensioni, su misura per le vostre esigenze uniche e per i vostri progetti.*

ECLISSE SPHERE

design | Brian Rasmussen

when the **BRILLIANCE**
of the **CRYSTAL**

meets the **ICONIC SHAPE** of the **SPHERE**

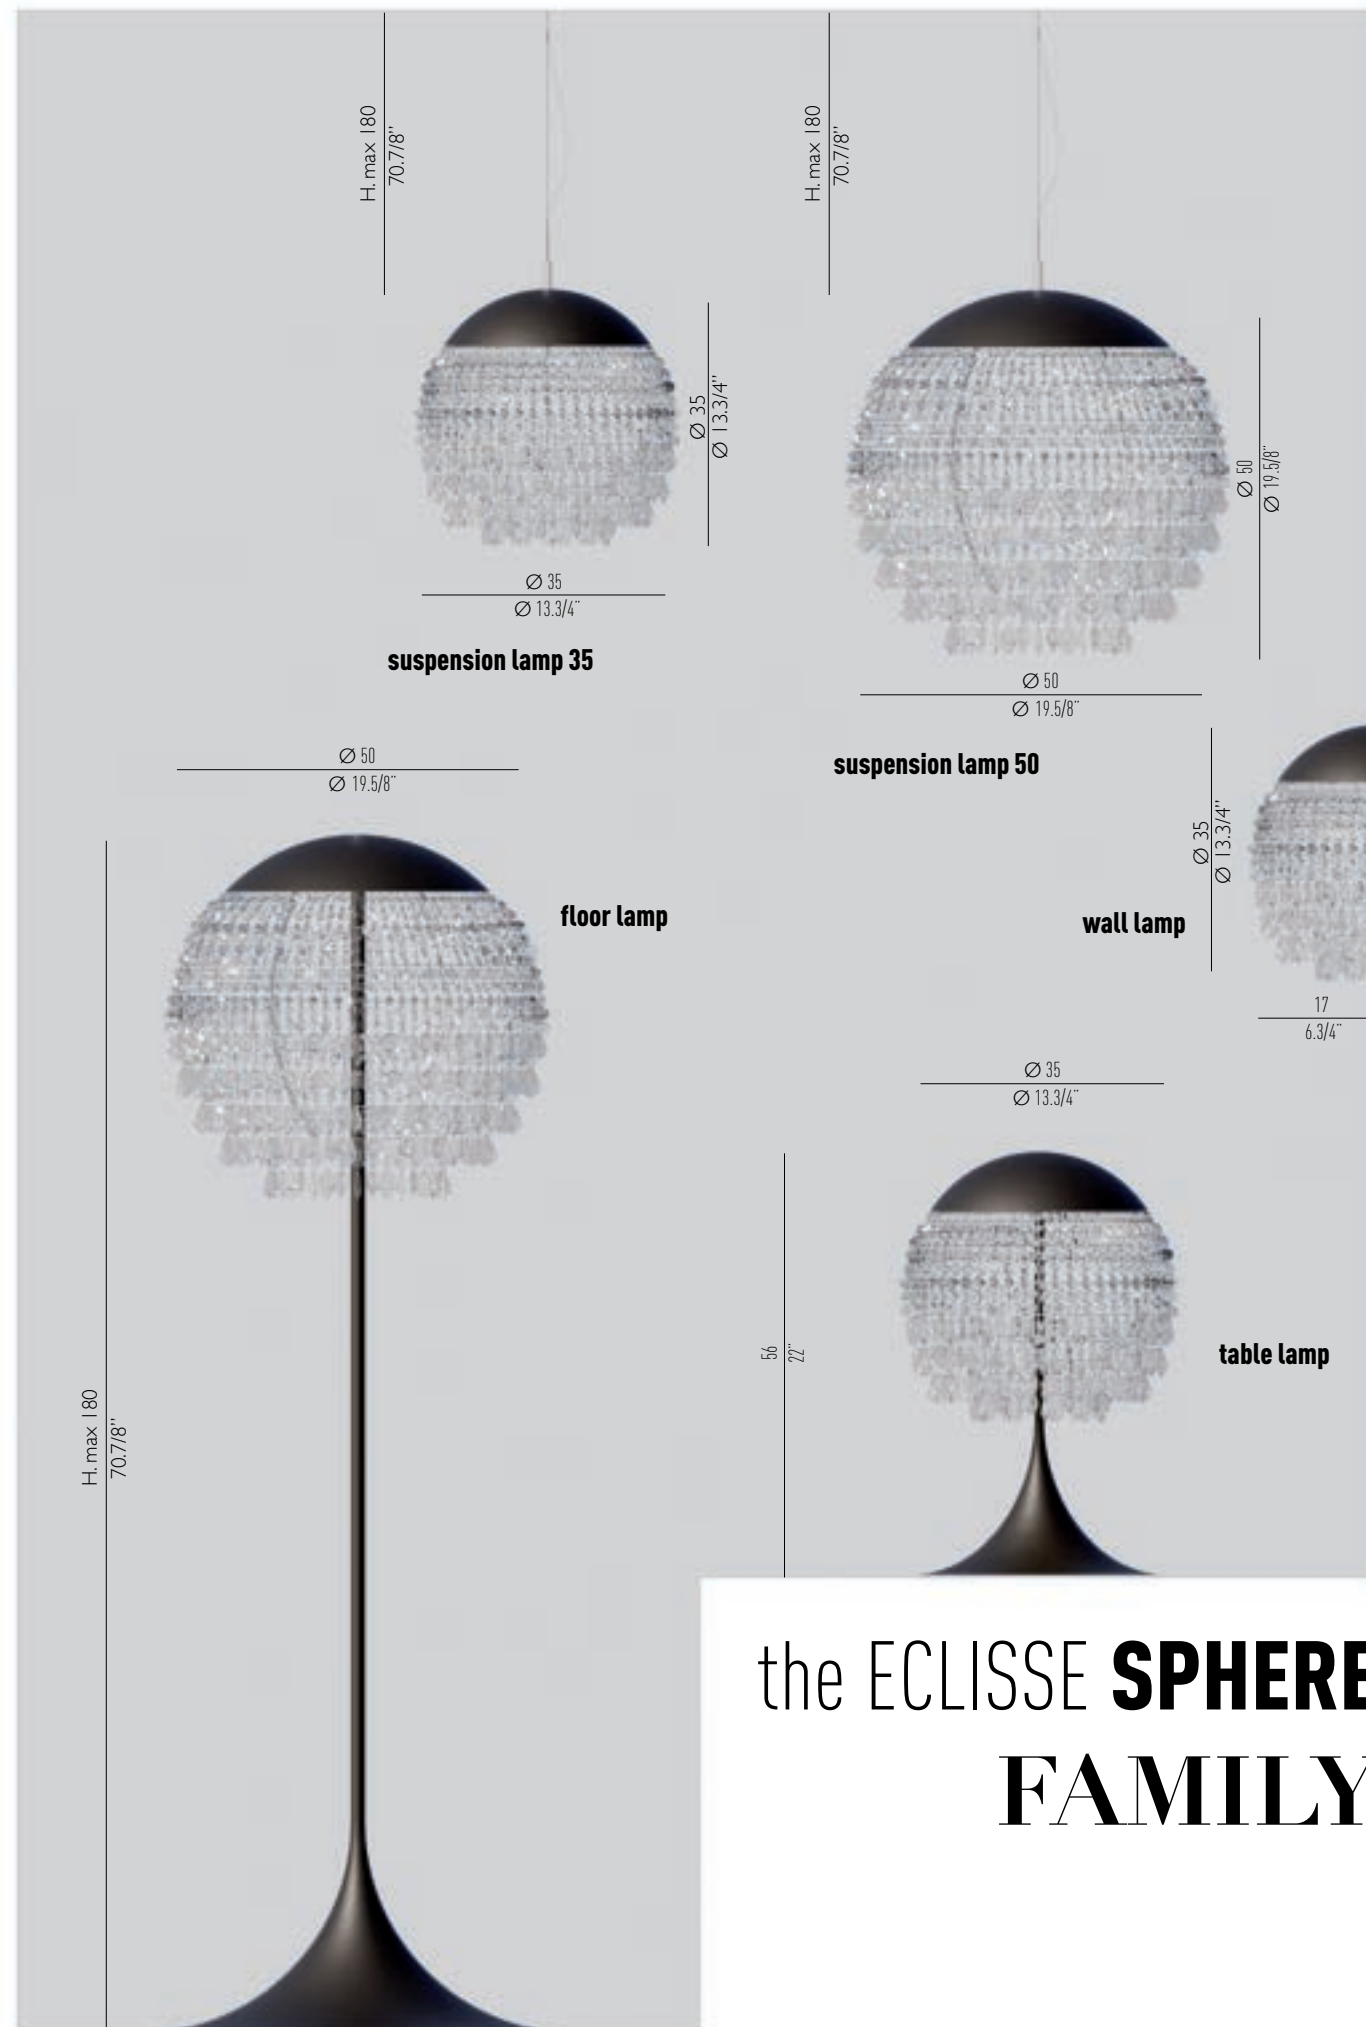

The metal dome of the ECLISSE SPHERE elegantly conceals the light sources and all technical components, ensuring a seamless appearance. The chromed metal structure, from which the exquisite crystal chains gracefully hang, remains clean and transparent, showcasing the crystal as the undisputed star of the design.

The sophisticated chromed finish enhances the overall aesthetic, as the metal virtually disappears amidst the dazzling reflections and refractions created by the crystal and light. This harmonious blend of materials and light results in a captivating and luxurious illumination piece that elevates any space.

La calotta metallica di ECLISSE SPHERE nasconde in modo elegante le sorgenti luminose e tutti i suoi componenti tecnici, offrendo un design impeccabile.

La struttura in metallo cromato, da cui pendono con grazia le raffinate filiere di cristallo, rimane chiara e trasparente, mettendo in evidenza il cristallo come protagonista indiscusso del suo design.

La sofisticata finitura cromata esalta l'estetica, poiché il metallo scompare in mezzo ai riflessi e alle rifrazioni creati dal cristallo e dalla luce. Questa miscela armoniosa di materiali e luce si traduce in un'illuminazione accattivante e lussuosa che esalta qualsiasi spazio.

Realizzata appositamente per le grandi installazioni,
questa collezione vi offre la tela perfetta per imprimere al vostro progetto un tocco distintivo. Il tubo metallico, disponibile in tre diverse lunghezze, si intreccia armoniosamente con eleganti filiere di cristalli, regalando una fusione perfetta tra lusso e creatività.

Il nostro team è pronto a fornirvi tutte le informazioni e l'assistenza necessarie.

*Scorrete tra questi esempi per esplorare le innumerevoli possibilità e ispirazioni per le vostre creazioni. Intraprendete il viaggio del design con **ECLISSE TUBE** e lasciate che la vostra immaginazione si realizzi!*

REFLECTING TIMELESS LUXURY

Baroque Sandblasted Décor Each bespoke mirror features a baroque sandblasted décor, adding a touch of opulence and grandeur. This intricate design, meticulously etched into the surface of the mirror, creates a captivating visual texture that captures the eye. The baroque motifs evoke a sense of timeless elegance, paying homage to the rich heritage and artistic legacy that Venice is renowned for.

ILLUMINATED ELEGANCE

What sets these bespoke mirrors apart is their hidden light source, carefully integrated within the design. This subtle detail brings the mirrors to life, casting a soft, warm glow onto the sandblasted décor. The illumination not only serves a functional purpose but also imparts a sense of customized luxury to each mirror, elevating it to a true work of art.
