NUOVE FINITURE

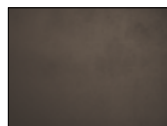

New Finishes

Gli elementi della terra vengono reinterpretati in sfumature di colore che vestono il tradizionale ferro di nuance naturali e inedite, grazie ad un particolare processo di brunitura. Lavorazioni autentiche, che rendono esclusiva ogni singola nostra opera "di arte e di luce".

The elements of the earth are reinterpreted in color nuances that dress the traditional iron with natural and original graduations, thanks to the particular burnish process. Unique processes which give an exclusive touch to each one of our works of "art and lights".

CONE

Design Il Fanale

Cone è un chiaro richiamo alla semplicità naturale della forma, un tratto classico ma al tempo stesso minimal, adatta a completare qualsiasi spazio, domestico o pubblico. La gamma si compone di modelli a sospensione ed applique di varie tipologie e dimensioni. Cone è disponibile per l'indoor nella tradizionale finitura ferro anticato o nelle nuove finiture brinite Grafene e Morocco o per l'outdoor in ottone anticato.

Cone is a clear reference to the the natural simplicity of the shape, a classical but at the same time minimal trait, suitable to complete any space, domestic or public. The collection includes pendant and wall light models of various types and sizes. Cone is available for indoor with the traditional antiqued iron finishing or with the new ones Grafene or Morocco, in burnished brass for outdoor.
