May 2026 - PLAYBOOK

30 YEARS OF LIGHT

Mars Floor by Yonoh Creative Studio

Founded in Milan in 1996, KDLN conceives light not as an accessory but as a structural and **expressive** element that shapes **space** and evokes **emotion**.

Through continuous stylistic and aesthetic **research**, light becomes **poetry**: a refined simplicity that enhances interiors, giving them identity, harmony, and warmth.

Collaborating with designers from around the world, KDLN balances tradition and modernity, transforming **intuitive** visions into projects with a universal, immediately recognisable **language**.

TENDU

MARC SADLER / 2026

TENDU
Spot L 9.8 x W 9 x H 42 cm

Board LED 1x12W
3000 K - 1200 lm - CRI>90

Feeding 100-240 V

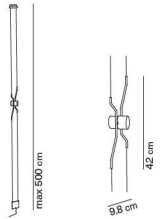

Dimmer included

Two cables stretched between ceiling and floor define a vertical field where the diffuser slides, stops, and adjusts its orientation. No additional cables; the structure itself provides power. Tendu transforms tension into freedom. It positions itself where needed, rotates as required, and illuminates with precision.

Floor lamp with ceiling anchoring, featuring a painted metal structure. Adjustable and sliding spotlight on low-voltage steel cables. Power cable with plug and integrated dimmer.

LIST PRICE:
TENDU: € 680
ADDITIONAL SPOT: € 340

Black

Board LED 1x17.5W
2700 K - 1800 lm - CRI>90

Feeding 100-240 V

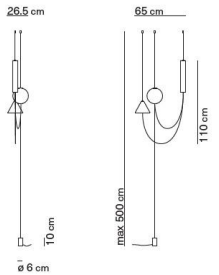

Dimmer included

In Mars, light becomes the starting point of a composition in which every shape finds its own dimension. A diffuser in balance, surrounded by volumes that trace trajectories through space. Tension and harmony coexist, gravity and lightness meet. Each volume responds to the others in an equilibrium that feels as if it has always existed.

Floor lamp with ceiling anchoring. Diffuser in cased blown opal glass. Black marble elements. Power cable with plug and integrated dimmer.

LIST PRICE:
€ 690

MARS SUSPENSION
L 70 x W 35 H ~ 130 cm

Board LED 1x26.3W
2700 K - 3000 lm - CRI>90

Feeding 220-240 / 120 V

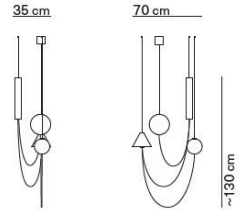

Dimmable phase cut

Two diffusers orbit in suspension, accompanied by volumes that draw invisible forces and geometries in the air. Each element seeks the other, finds its own balance, and composes a system where gravity and lightness speak to each other in silence. Mars Suspension captures that rare moment when matter and light reach a harmony that feels predetermined, inevitable, poetic.

Suspension lamp. Cased blown opal glass diffusers. Black marble elements. Painted metal structure.

LIST PRICE:
€ 850

Black Marble

Feeding 220-240 / 120 V

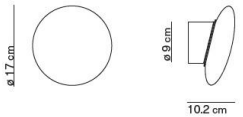

Dimmable phase cut

A blown-glass cushion leaning against the wall. Its glossy profile captures unexpected reflections, while its flattened shape generates a constantly renewed perception. Born to endure, designed to belong: protected from dust and water, it finds its place in any space that calls for light. A small sculptural object that brings its presence wherever architecture invites it.

Wall lamp. Painted metal structure with IP55 protection rating. Polished opal blown glass diffuser.

LIST PRICE:
BLACK: € 295
BRASS: € 325

Kate's unconventional spirit becomes compact. A ring on the tensioned cable frees the angled diffuser, orienting it in any direction to cast direct and diffused light. Technical precision and expressive gesture meet: any color and any angle become a unique expression of space. Alone or in composition, Kate 43 carries the unmistakable signature of its family.

Suspension lamp with opal diffuser. Painted aluminium structure, available in custom colours on request, even for just 1 piece.

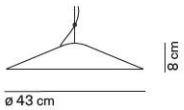

LIST PRICE:
WHITE: € 460
GOLDEN LEAF: € 785

Light that inspires, space in transformation. Polar is the essence of intelligent design, where functionality and versatility meet in a unique modular system. Its interchangeable metal arms create luminous configurations around a central axis, forming pure geometries that fill the space. A creative exercise that illuminates and shapes new visions.

Suspension lamp. Painted ABS structure and stainless steel arms.

LIST PRICE:
