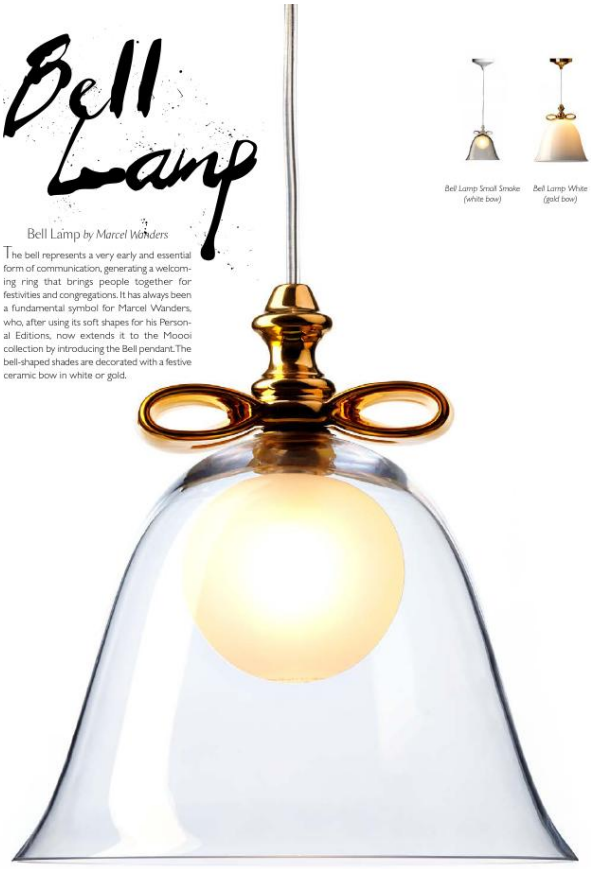
Bell Lamp

Bell Lamp Small Smoke (white bow) *Bell Lamp White (gold bow)*

Bell Lamp *by Marcel Wanders*

The bell represents a very early and essential form of communication, generating a welcoming ring that brings people together for festivities and congregations. It has always been a fundamental symbol for Marcel Wanders, who, after using its soft shapes for his Personal Editions, now extends it to the Moooi collection by introducing the Bell pendant. The bell-shaped shades are decorated with a festive ceramic bow in white or gold.



Blow Away Vase *by Front*

Something truly bizarre has happened to this classic Royal Delft Blue porcelain vase... it has been blown aside by a powerful gush of wind. The wind motion becomes part of its features and its beauty also lays in the fact that it is bent but not defeated.

Bold *by Roderick Vos*

The Bold series is born from Rodericks fascination with laser cutting technology. A laser cuts an extremely accurate form or pattern in the sheet of metal. This technology allows handling the sheet very efficiently and with minimum waste.

Construction Lamp

Construction Lamp
by Joost van Bleiswijk

Inspired by the vast number of combinations possible with the tools and bolts present in his giant workshop, Joost van Bleiswijk started playing with them and ended up constructing and creating a new and exciting design! The Construction lamp ultimately originates from a bright curiosity combined with expert skills, industrial tools and a touch of playful passion for vintage construction toys. As a result, the lamp's details and joints take the shape of Victorian cast iron components and become part of a base that resembles a traditional electricity pole. Enjoy a high voltage stream of inventiveness and light!

Dandelion *by Richard Hutten*

True to its name, Dandelion was initially inspired by the plant that creates the famous and poetic 'dandelion snow' of cotton-like seeds when a gush of wind blows. The lamp transmits an explosive feeling of energy in motion, reaching towards us from its centre. Striking and purely self-generated energy to lighten up and blow away the weight of everyday life. Dandelion is truly a breath of fresh air.

Originally inspired by the form of a cactus and its modular shape, the various parts of the Elements collection resemble a functional sculpture: as beautiful as the cactus, but extremely versatile in their combinations and use.

Emperor *by Neri & Hu*

Once upon a time, an Asian emperor received a nightingale as a gift. The charming bird sang so beautifully that the emperor always wanted it by his side. He placed the nightingale in a majestic hand woven bamboo cage in the imperial chambers and listened, enchanted, to the magic sound...

Extension Chair *by Sjoerd Vroonland*

The Extension Chair's name clearly reveals its potential. Vroonland's design is the product of his reflection on the traditional ways of using a seater. He decides to take a groundbreaking approach by transforming his chair into a coat hanger. What intrigues him is that technology, craftsmanship, storytelling and the actual physical contact all come together in this one design.

Farooo

Farooo *by Marcel Wanders*

The Farooo lamp is inspired by the Italian word for a lighthouse and its intense beam of light, which acts as guidance for ships around dangerous coastlines. Let yourself be lead to the safety of Farooo's light beam... floating happily towards its soft, placid glow.

Lolita *by Nika Zupanc*

Who is afraid of pink? My imagination chases female archetypes intentionally. Frivolous, even naive objects are my favorite victims. Lolita is here to play with your emotions. She is here to break your everyday routine.

Salago *by Danny Fang*

The Salago lamp by Danny Fang is born out of his fascination for the timeless value of mastering a craft in contrasts with the quick pace of mass production. By combining the techniques of Paper Mache and paper pulping he creates a lamp with a strong structure and incredibly light body. While at first sight its form reminds us of industrial factory lighting, at a second glance the almost palpable structure of its paper shade embodies the timeless value of a handmade craft. Although a very light light, Salago lamp has a strong impact. Available in three different colours: Green, Natural (white) and Blue.

Smoke *by Maarten Baas*

Maarten Baas interpreted his fascination for the element fire with a groundbreaking approach. With the innovative idea of creating furniture finished with fire. Capturing the burning flames into the solidity of wood. More practically, in the production process wooden pieces of furniture are set to fire and burned. When they become completely black the fire is extinguished and the pieces of burned furniture are impregnated with resin to capture the beauty of burned wood. Each chair is unique due to this exceptional production process.

Urbanhike *by Marcel Wanders*

The Urbanhike Table is a symbol of Moooi's journey to reach the highest peaks of quality, innovation and style by spreading its designs to the most significant, beautiful cities in the world. Just like the original Alpine mountaineers used to do after climbing a summit, Moooi decorates its hiking cane with tags from all the metropolises that it conquered during its extensive travels. The Urbanhike Table is a playful reminder of the cosmopolitan heart and urban character of Moooi's designs!

Zliq

Zliq by Marcel Wanders

The Zliq Island concept is created by two Zliq sofas facing each other, with the addition of an extra component in between. When you have enjoyed enough privacy for the day, you can roll away the in-between module and invite other people to enjoy the treasures of your very own Zliq Island.
